2 **ABSTRACT**

3 An implementation, described herein, provides a highly discoverable  
4 mechanism for the user to quickly look-ahead in the EPG grid while still using the  
5 familiar and intuitive scroll-forward look-ahead user interaction. This abstract  
6 itself is not intended to limit the scope of this patent. The scope of the present  
7 invention is pointed out in the appending claims.
